Offices

10 Paxton Street, Springwood, Qld 4127

Floor Area: 554 m²

Land Area: 739.00 m² (approx)

Property Description

Modern development located in the commercial heart of Springwood. The property is a two level commercial building with secure basement car parking and offers a single level office space.

This building has no summer heat loading glass to the east or west aspect. The desired north aspect has a covered veranda which protects heat gain to building in summer and allows solar passive warming in winter. The comfortable south street facing frontage is filled with floor to ceiling tinted glass. These attributes are the foundations for a naturally comfortable productive work space and are rare considerations found in commercial buildings.

Internally, natural light is in abundance in this property as perimeter offices are all glass partitions, allowing natural light to flow throughout the building.

This building has a great feel and is a must see. The previous tenant became so successful at this property, that they grew too large and had to reluctantly leave to even larger premises.

Are you next to follow this success?
